User Stories – TeachHub Lagos

A Centralised Digital Resource Platform for Educators

1. Introduction

1.1 Purpose

This document contains the user stories for TeachHub Lagos. It describes the expected functionality of the platform from the perspective of its primary users.

The user stories are derived from the project's documented functional requirements and are intended to support development discussions, requirements clarification, and testing.

1.2 User Roles

The platform has two primary user roles:

- **Teacher:** Creates and manages lessons, quizzes, flashcards, and educational resources.
- **Administrator:** Manages users, roles, permissions, and platform-wide content.

1.3 User Story Format

Each story follows this format:

As a [user role],
I want [functionality],
so that [benefit or reason].

---

2. Teacher User Stories

Epic 1: Account and Profile Management

US-001: User Registration and Authentication

As a user, I want to register and authenticate on the platform so that I can access the appropriate platform features.

- Priority: High
- Related requirement: FR-001

Acceptance criteria:

- A user can register through the platform's registration functionality.
- A registered user can authenticate.
- Protected functionality requires appropriate authentication.

US-002: Update Profile

As a teacher, I want to update my profile information so that my account details remain accurate.

- Priority: Medium

- Related requirement: FR-007

Acceptance criteria:

- A teacher can access their profile information.
- A teacher can update the supported profile details.
- Updated information is reflected in the account.

US-003: Change Password

As a teacher, I want to change my password securely so that I can maintain control over access to my account.

- Priority: High
- Related requirement: FR-008

Acceptance criteria:

- A teacher can access the password-change functionality.
- The system processes a password change securely.
- The updated password can be used for subsequent authentication.

Epic 2: Lesson Management

US-004: Create a Lesson

As a teacher, I want to create a lesson with a title, lesson plan, subject, grade level, objectives, and content so that I can organise my instructional materials.

- Priority: High
- Related requirements: FR-009, FR-010, FR-011, FR-012, FR-013

Acceptance criteria:

- A teacher can initiate lesson creation.
- The lesson supports a title, plan, subject, grade level, objectives, and rich-text content.
- The teacher can save the lesson.

US-005: Attach Learning Resources to a Lesson

As a teacher, I want to attach images, videos, and other supported resources to my lessons so that I can provide additional learning materials.

- Priority: High
- Related requirement: FR-014

Acceptance criteria:

- A teacher can attach supported resources to a lesson.
- The attached resources are associated with the relevant lesson.
- The teacher can access the attached resources when managing the lesson.

US-006: Create Quizzes

As a teacher, I want to create quizzes with multiple-choice and short-answer questions so that I can incorporate assessment activities into my lessons.

- Priority: Medium
- Related requirements: FR-015, FR-016

Acceptance criteria:

- A teacher can create a quiz.
- A quiz can contain multiple-choice questions.
- A quiz can contain short-answer questions.
- The quiz is associated with the relevant learning content.

US-007: Create Flashcards

As a teacher, I want to create flashcards containing images and text so that I can develop additional learning materials.

- Priority: Medium
- Related requirement: FR-017

Acceptance criteria:

- A teacher can create a flashcard.
- A flashcard can contain text and images.
- The teacher can manage the created flashcard.

US-008: Preview Lesson Content

As a teacher, I want to preview lesson content before publishing so that I can review the material before making it available for sharing.

- Priority: High
- Related requirement: FR-018

Acceptance criteria:

- A teacher can access the lesson preview functionality.
- The preview displays the lesson content.
- The teacher can review the content before publishing.

US-009: Publish Lesson Content

As a teacher, I want to publish lesson content for platform-wide sharing so that other authorised users can access the material.

- Priority: High
- Related requirement: FR-019

Acceptance criteria:

- A teacher can initiate the publishing process.
- Published content is made available for the intended sharing scope.
- The teacher can manage their lesson content.

US-010: Manage Lessons

As a teacher, I want to manage the lessons I create so that I can maintain and update my instructional materials.

- Priority: High
- Related requirement: FR-020

Acceptance criteria:

- A teacher can access their lesson management functionality.
- A teacher can edit their lesson content.
- Changes are reflected in the managed lesson.

Epic 3: Educational Resource Management

US-011: Upload Educational Resources

As a teacher, I want to upload educational resources so that I can store and share useful teaching materials on the platform.

- Priority: High
- Related requirements: FR-021, FR-022

Acceptance criteria:

- An authorised teacher can upload supported educational resources.
- Supported resource types include images, videos, and worksheets.
- Uploaded resources can be accessed through the platform.

US-012: Categorise Educational Resources

As a teacher, I want to categorise educational resources by subject and grade level so that materials can be organised according to their educational context.

- Priority: High
- Related requirements: FR-023, FR-024

Acceptance criteria:

- A resource can be associated with a subject.
- A resource can be associated with a grade level.
- The assigned categories are available when viewing the resource.

US-013: Edit Uploaded Resources

As a teacher, I want to edit uploaded resources so that I can maintain accurate and relevant educational materials.

- Priority: Medium
- Related requirement: FR-025

Acceptance criteria:

- An authorised teacher can access an uploaded resource for editing.
- The teacher can update supported resource information.
- The changes are reflected in the resource.

US-014: View Educational Resources

As a teacher, I want to view educational resources so that I can access materials that support lesson preparation and teaching.

- Priority: High
- Related requirement: FR-026

Acceptance criteria:

- An authorised teacher can access available educational resources.
- The teacher can view the selected resource.
- Access follows the applicable permissions.

---

3. Administrator User Stories

Epic 4: User Administration

US-015: Add New Users

As an administrator, I want to add new users to the platform so that teachers and other authorised users can access the system.

- Priority: High
- Related requirement: FR-002

Acceptance criteria:

- An administrator can access user management.
- An administrator can add a new user.
- The new user is recorded on the platform.

US-016: Modify User Accounts

As an administrator, I want to modify user accounts so that I can maintain accurate user information.

- Priority: High
- Related requirement: FR-003

Acceptance criteria:

- An administrator can view existing user accounts.
- An administrator can modify supported account information.
- Changes are reflected in the user account.

US-017: Delete User Accounts

As an administrator, I want to delete user accounts so that I can manage platform membership.

- Priority: High
- Related requirement: FR-004

Acceptance criteria:

- An administrator can initiate user account deletion.
- The system processes the deletion.

- Users without administrative permissions cannot perform this action.

US-018: Manage User Roles and Permissions

As an administrator, I want to modify user roles and permissions so that access to platform functionality can be controlled.

- Priority: High
- Related requirement: FR-005

Acceptance criteria:

- An administrator can view user roles.
- An administrator can modify user roles and permissions.
- Access reflects the assigned permissions.

US-019: View Platform Content

As an administrator, I want to view content created on the platform so that I can oversee educational materials.

- Priority: High
- Related requirement: FR-006

Acceptance criteria:

- An administrator can access platform content.
- The administrator can view content created by platform users.

Epic 5: Resource Administration

US-020: Delete Educational Resources

As an administrator, I want to delete educational resources so that I can maintain control over platform content.

- Priority: High
- Related requirement: FR-027

Acceptance criteria:

- An administrator can access the resource deletion functionality.
- An administrator can initiate resource deletion.
- Teachers without administrative permissions cannot delete resources.

---

4. Cross-Cutting User Story

US-021: Access the Platform on Mobile Devices

As a teacher, I want to access the platform through a mobile-responsive interface so that I can use educational resources conveniently on my smartphone.

- Priority: High
- Related requirement: NFR-003

Acceptance criteria:

- The interface adapts to smartphone screen sizes.
- Navigation remains usable on smaller screens.
- Core platform functionality remains accessible through supported mobile browsers.

---

5. User Story Summary

Story ID	User Story	Role	Priority
US-001	Register and authenticate	User	High
US-002	Update profile	Teacher	Medium
US-003	Change password	Teacher	High
US-004	Create a lesson	Teacher	High
US-005	Attach learning resources	Teacher	High
US-006	Create quizzes	Teacher	Medium
US-007	Create flashcards	Teacher	Medium
US-008	Preview lesson content	Teacher	High
US-009	Publish lesson content	Teacher	High
US-010	Manage lessons	Teacher	High
US-011	Upload educational resources	Teacher	High
US-012	Categorise resources	Teacher	High
US-013	Edit uploaded resources	Teacher	Medium
US-014	View educational resources	Teacher	High
US-015	Add new users	Administrator	High
US-016	Modify user accounts	Administrator	High
US-017	Delete user accounts	Administrator	High
US-018	Manage roles and permissions	Administrator	High

US-019	View platform content	Administrator	High
US-020	Delete educational resources	Administrator	High
US-021	Access the platform on mobile	Teacher	High

Priorities are proposed for this portfolio document and are not represented as priorities formally assigned during the original project.

---

6. Relationship Between User Stories and Requirements

The user stories were derived from the Functional Requirements Document.

The relationship supports traceability between:

- Business needs.
- Functional requirements.
- User stories.
- Acceptance criteria.
- Testing activities.

For example:

Business need: Teachers need an easier way to create and organise lessons.

Functional requirement: FR-009 – The system shall allow teachers to create lessons.

User story: US-004 – As a teacher, I want to create a lesson with the relevant instructional details so that I can organise my teaching materials.

Acceptance criteria: The teacher can create and save a lesson containing the specified fields.

Testing activity: Verify that a teacher can create a lesson and that the required information is captured.

---

7. Notes and Items for Further Clarification

The following areas could be clarified in a future requirements refinement exercise:

1. Detailed validation rules for lesson creation.
2. Maximum file sizes and supported upload formats.
3. Whether teachers can edit only their own resources or other shared resources.
4. Whether publishing requires administrator approval.
5. Whether teachers can recover deleted content.
6. Detailed password-change and account-recovery workflows.
7. Whether resource search and filtering are required.

These are refinement questions, not confirmed features of the original implementation.

8. Business Analyst Contribution

As the Business Analyst, I translated the documented system requirements into user-focused stories that explain the expected functionality and its business value.

This artefact demonstrates my understanding of:

- User-centred requirements documentation.
- Functional decomposition.
- Acceptance criteria.
- Requirements traceability.
- Collaboration between business and technical team members.
- Requirements clarification and refinement.
